The Spectacle of Flight

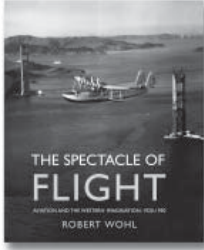

Aviation and the Western Imagination, 1920-1950

Robert Wohl,
University of California
at Los Angeles

This extraordinary account of the development of aviation takes us from Charles Lindbergh's dramatic New York–Paris flight to the horrifying bombing campaigns of World War II. Robert Wohl recaptures in words and illustrations an era when a wide-ranging cast of characters—among them millionaire Howard Hughes, Italian dictator Mussolini, and architect Le Corbusier—fell under aviation's spell.

"Robert Wohl's latest history of flight [is] a luscious read taking us back to a time when the bloom was still very much on the aviation rose. . . . This is not a technical history, but one of those rare gems that brings to life an achingly beautiful epoch disintegrated by the ordinary forward march of progress and the cataclysm of 1939-1945."—Ron Laurenzo, *Washington Times*

The Enlightenment and the Intellectual Foundations of Modern Culture

Louis Dupré,
Yale University

An eminent scholar of modern culture argues that the Enlightenment—the importance of which has been vigorously debated in recent years—was a more complex phenomenon than either its detractors or advocates assume.

"Ranging as it does over art, morality, religion, science, philosophy, social theory, and a good deal besides, [Dupré's book] is a marvel of scholarly erudition. . . . Formidably well-researched, . . . [this] would make an excellent introduction to Enlightenment ideas for the general reader."—Terry Eagleton, *Harper's Magazine*

Dressed to Rule

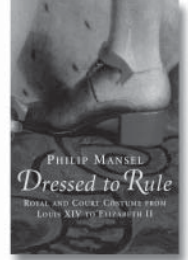

Royal and Court Costume from Louis XIV to Elizabeth II

Philip Mansel

This intriguing book explores how European royals, including Louis XIV, Napoleon I, and Princess Diana, have carefully controlled their styles of dress and how the right costume, at the right time, can transform and define a monarch's reputation.

A Little History of the World

E.H. Gombrich; Translated by Caroline Mustill
Illustrated by Clifford Harper

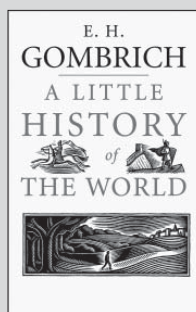

“A lovely, lively historical survey that takes in Neanderthals, Hohenzollerns and just about everything in between. . . . Conversational, sometimes playful . . . a fine conception and summarizing of the world’s checkered past for young and old.”—*Kirkus Reviews* (starred review)

In 1935, with a doctorate in art history and no prospect of a job, the 26-year-old Ernst Gombrich was invited by a publishing acquaintance to attempt a history of the world for younger readers. Amazingly, he completed the task in an intense six weeks, and *Eine kurze Weltgeschichte für junge Leser* was published in Vienna to immediate success, and is now available in seventeen languages across the world.

Toward the end of his long life, Gombrich embarked upon a revision and, at last, an English translation. *A Little History of the World* presents his lively and involving history to English-language readers for the first time. Superbly designed and freshly illustrated, this is a book to be savored and collected.

In forty concise chapters, Gombrich tells the story of man from the stone age to the atomic bomb. In between emerges a colorful picture of wars and conquests, grand works of art, and the spread and limitations of science. This is a text dominated not by dates and facts, but by the sweep of mankind’s experience across the centuries, a guide to humanity’s achievements and an acute witness to its frailties. The product of a generous and humane sensibility, this timeless account makes intelligible the full span of human history.

Jewish Women and Their Salons

The Power of Conversation

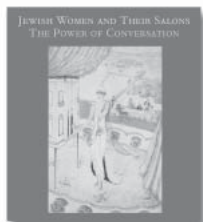

Emily D. Bilski and
Emily Braun, *Hunter College and the Graduate Center at the City University of New York*;
With contributions by Leon Botstein, Shira Brisman, Barbara Hahn, and Lucia Re

From their debut in Berlin in the 1780s to their emergence in 1930s California, Jewish women’s salons served as welcoming havens where all classes and creeds could openly debate art, music, literature, and politics. This fascinating book is the first to explore the history of these salons where remarkable women of intellect resolved that neither gender nor religion would impede their ability to bring about social change.

“A splendid volume of essays. . . . It documents not just the historical milieu but also the courageous morality of these artistic communities.”—Elaine Showalter, *Times Literary Supplement*

The Last of the Celts

Marcus Tanner

In search of the Celtic past and what remains of its authentic culture today, award-winning author Marcus Tanner travels throughout the remote Celtic world. He describes the relentless pressure on Celtic communities to assimilate and warns that a distinct Celtic identity may not survive for another generation—a sobering loss that would impoverish us all.

“An exceptional journey into the remarkable cultural history of the Celtic people. . . . His experience reads like a travelogue and an insightful history with an emphasis on cultural heritage.”—Raymond L. Flynn, *Boston Sunday Herald*

Exorcism and Enlightenment

Johann Joseph Gassner and the Demons of Eighteenth-Century Germany

H. C. Erik Midelfort, *University of Virginia*

In this book H. C. Erik Midelfort delves deeply into eighteenth-century records to explore the story of German Catholic priest Johann Joseph Gassner's extraordinary powers of exorcism. The author describes the thousands of healings, the official efforts to curb Gassner, the public controversy, and the surprising role of magic and belief in an age of scientific enlightenment.

“This study of demonic possessions and exorcisms in the era of Enlightenment redefines our understanding of the way in which natural philosophy, medicine, and religion began to diverge after centuries of being intertwined. Midelfort raises his sights beyond the details, showing us that the Gassner controversy was a critical moment in the Western quest for an understanding of the self, and for mastery over the evils that bedevil every individual and society.”—Carlos Eire

General Motors and the Nazis

The Struggle for Control of Opel, Europe's Biggest Carmaker

Henry Ashby Turner, Jr., Yale University

This book, the first ever based on unrestricted access to General Motors' internal records, documents the giant American corporation's dealings with the Third Reich. GM purchased Opel, Europe's largest automaker, in the 1920s and continued to hold it through the Second World War. Historian Henry Ashby Turner, Jr., uncovers the fascinating story of how the American carmaker conducted business in Germany under the Nazi regime and explores larger issues concerning the relations between international corporations and the Third Reich.

"Based on excellent and deep research, this book provides a clear, contextualized, and convincing account of General Motors efforts to run its German subsidiary Opel from 1933 to the American entry into the war in 1941."—Gerald D. Feldman

The People's State

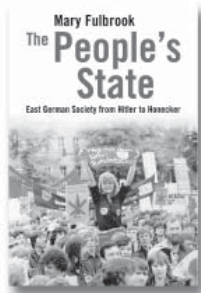

East German Society from Hitler to Honecker

Mary Fulbrook, University College London

What was life really like for East Germans, effectively imprisoned behind the Iron Curtain? The headline stories of Cold War spies and surveillance by the secret police, of political repression and corruption, do not tell the whole story. After the unification of Germany in 1990 many East Germans remembered their lives as interesting, varied, and full of educational, career, and leisure opportunities: in many ways "perfectly ordinary lives."

Using the rich resources of the newly-opened GDR archives, Mary Fulbrook investigates these conflicting narratives. She explores the transformation of East German society from the ruins of Hitler's Third Reich to a modernizing industrial state. She examines changing conceptions of normality within an authoritarian political system, and provides extraordinary insights into the ways in which individuals perceived their rights and actively sought to shape their own lives.

Cold War Ecology

Forests, Farms, and People in the East German Landscape, 1945-1989

Arvid Nelson, Yale School of Forestry and Environmental Studies

East Germany, its economy, and its society were in decline long before the country's political collapse in the late 1980s. The clues were there in the natural landscape, Arvid Nelson argues in this groundbreaking book, but policy analysts were blind to them. Nelson sets East German history within the context of the landscape history of two centuries to underscore how forest and ecosystem change offered a reliable barometer to the health and stability of the political system that governed them.

Ponary Diary, July 1941–November 1943

A Bystander's Account of a Mass Murder

Kazimierz Sakowicz; Edited by Yitzhak Arad

Over a period of several years, Polish journalist Kazimierz Sakowicz was an eyewitness to the Nazis' systematic murder of the Jews of Wilno (Vilnius), near Ponary. He chronicled events in a diary kept at great risk, and though he did not survive the War, much of Sakowicz's hidden diary did. His chilling record is here published in English and extensively annotated for the first time.

"This remarkable diary, written by a sympathetic Polish observer, gives a graphic and harrowing account of the mass murder of between fifty and sixty thousand Lithuanian Jews in the forest of Ponary just outside Vilna. It is a unique contribution to our understanding of the Holocaust."

We Wept Without Tears

Testimonies of the Jewish Sonderkommando from Auschwitz

Gideon Greif, University of Miami

This disturbing book consists of a series of interviews with Jewish survivors of Auschwitz-Birkenau who had been forced by the Germans to facilitate the mass extermination of other prisoners. These Sonderkommando not only describe the unimaginable horror of their own experiences but also provide direct testimony of the boundless cruelty and deceit of the Nazis.

1945

The War That Never Ended

Gregor Dallas

"This is a not-to-be-forgotten read by an author of outstanding quality."

—Noble Frankland, *The Spectator*

1945 is a monumental, multi-dimensional history of the end of World War II. Dallas narrates in meticulous detail the conflicts, contradictions, motives, and counter-motives that marked the end of the greatest military conflict in modern history and established lasting patterns of deceit, uncertainty, and distrust out of which the Cold War was born.

Beginning with the siege of Berlin, Dallas describes in simple human terms the interactions of Roosevelt, Churchill, Stalin, Hitler, Zhukov, Truman, de Gaulle, Macmillan, along with others relatively unknown, vividly portraying the interpenetration of the daily with the epochal, the obscure with the great political events taking place on the world stage. A grand narrative of diplomatic mistakes, military accidents, and the chaos inherent in human affairs, 1945 draws the reader into a profound reflection on the basic shaping forces of history, the arbitrary ways we objectify its conflicts, and the subtle, almost invisible filaments that enmesh public events with private passions.

The Unknown Battle of Midway

The Destruction of the American Torpedo Squadrons

Alvin Kernan, Princeton University

The Battle of Midway is considered the greatest U.S. naval victory, but behind the luster is the devastation of the American torpedo squadrons. Of the 51 planes sent to attack Japanese carriers only 7 returned, and of the 127 aircrew only 29 survived. Not a single torpedo hit its target.

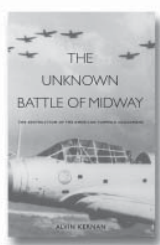

A story of avoidable mistakes and flawed planning, *The Unknown Battle of Midway* reveals the enormous failures that led to the destruction of four torpedo squadrons but were omitted from official naval reports: the planes that ran out of gas, the torpedoes that didn't work, the pilots who had never dropped torpedoes, and the breakdown of the attack plan. Alvin Kernan, who was present at the battle, has written a troubling but persuasive analysis of these and other little-publicized aspects of this great battle. The standard navy tactics for carrier warfare are revealed in tragic contrast to the actual conduct of the battle and the after-action reports of the ships and squadrons involved.

"*The Unknown Battle of Midway* is the clearest and most persuasive story of the Battle of Midway I have ever read or heard. It asks the right questions directly and answers them clearly, simply, and convincingly, basing its conclusions on keen analysis based on the primary sources and much new evidence rarely if ever used by other accounts. Kernan brings the events to life as only a participant with high literary talents can."—Donald Kagan

Engineering Communism

How Two Americans Spied for Stalin and Founded the Soviet Silicon Valley

Steven T. Usdin

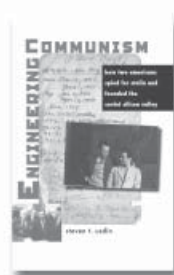

Engineering Communism is the fascinating story of Joel Barr and Alfred Sarant, dedicated Communists and members of the Rosenberg spy ring, who stole information from the United States during World War II that proved crucial to building the first advanced weapons systems in the USSR. On the brink of arrest, they escaped with KGB's help and eluded American intelligence for decades.

Drawing on extensive interviews with Barr and new archival evidence, Steve Usdin explains why Barr and Sarant became spies, how they obtained military secrets, and how FBI blunders led to their escape. He chronicles their pioneering role in the Soviet computer industry, including their success in convincing Nikita Khrushchev to build a secret Silicon Valley.

"Highly recommended reading for anyone interested in an age we have quickly forgotten, in which Americans could become committed Communists and risk everything for the sake of ideology."—Francis Fukuyama

What Stalin Knew

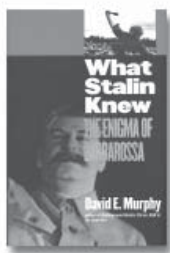

The Enigma of Barbarossa

David E. Murphy

This book is the first to bring out of the shadows the intelligence war between Hitler and Stalin during the years 1939 to 1941. Drawing on extensive Soviet archival material, much of it newly released, David E. Murphy presents abundant information about Stalin's world, his relations with his Kremlin colleagues, and many enigmas that have surrounded the Nazi invasion. With documented revelations about what Stalin knew and complex analysis of how he thought, Murphy provides an unparalleled portrait of the mind of the dictator and the workings of the system over which he presided.

"If, after the war, the Soviet Union had somehow been capable of producing an official inquiry into the catastrophe of 6/22—comparable in its mandate to the 9/11 commission here—its report might have read a little like David E. Murphy's *What Stalin Knew*. The former chief of Soviet operations at C.I.A. headquarters, Murphy brings to his subject both knowledge of Russian history and an insider's grasp of how intelligence is gathered, analyzed and used—or not."—Niall Ferguson, *New York Times Book Review*

The Siege of Budapest

One Hundred Days in World War II

Krisztián Ungváry;
Translated from the
Hungarian by
Ladislav Löb

Based on formerly inaccessible documents and several hundred interviews with Hungarian and German survivors, this is the first complete and unbiased account of the siege of Budapest. Street by street, day by day, Krisztián Ungváry describes the battle and its horrors in meticulous detail. One hundred and two days passed between the appearance of the first Soviet tank and the final capture of Buda Castle. More than 80,000 Soviet troops and 38,000 German and Hungarian soldiers were killed; about 38,000 Hungarian civilian lives were lost. Civilian casualties were extraordinarily high because the city's 800,000 noncombatant residents were never evacuated. This book represents a massive effort of historical reconstruction, and a major contribution to the history of World War II.

"Ungváry's account of the 100-day siege of Budapest is a gripping story of horror and courage. . . . Ungváry has based his extraordinary tale on archival resources and hundreds of survivor interviews. This is the finest account of this most dreadful incident in a world war filled with dreadful incidents. Recommended for all collections."—*Library Journal*

My Dear Mr. Stalin

The Complete Correspondence of Franklin D. Roosevelt and Joseph V. Stalin

Edited, with Commentary, by Susan Butler;
Foreword by Arthur Schlesinger, Jr.

My Dear Mr. Stalin is the first publication that contains the complete correspondence between Franklin D. Roosevelt and Joseph V. Stalin. This collection of more than three hundred hot-war messages, never before fully available in any language, is an invaluable primary source for understanding the relationship that developed between these two great world leaders during a time of supreme world crisis.

The correspondence, secret at the time, begins with a letter Roosevelt wrote to Stalin offering aid to the Soviet Union following Hitler's surprise attack in 1941. It ends with a message that was an attempt to minimize the differences between the two leaders, approved by Roosevelt only minutes before his death in 1945. The book traces the evolution of their unique relationship, revealing the statesmanship of the two men and their thinking about the grave events of their time. An informative introduction to the volume and generous annotations set the letters in context.

"*My Dear Mr. Stalin* is a fascinating historical collection of letters between the two most powerful men on earth—hence this is both highly important and vibrantly human. The result is a captivating book that will be obligatory for all scholars of the Grand Alliance and those interested in how the World War was won."—Simon Sebag Montefiore

England and the Spanish Armada

The Necessary Quarrel

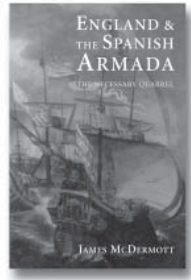

James McDermott

The Anglo-Spanish War of 1585–1603 was, to most contemporary Englishmen, a conflict for the soul of the nation. To their descendants, the Armada campaign of 1588 represented a watershed in European history that both preserved English freedoms and halted the momentum of an ambitious and alien empire. Yet the victorious nation had contributed much to the conflict. This book examines the process by which the Spaniard, a long-term ally and friend, became in English eyes the epitome of human depravity, and how resistance to his imagined goals helped shape an emerging sense of nationhood.

The Somme

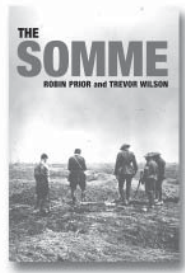

Robin Prior, *University of New South Wales* and Trevor Wilson, *University of Adelaide*

“A major addition to the literature on the military history of the Great War.”—Jay Winter

In the long history of the British Army, the Battle of the Somme was its bloodiest encounter. Between July 1 and mid-November 1916, 432,000 of its soldiers became casualties—about 3,600 for every day of battle. German casualties were far fewer despite British superiority in the air and in lethal artillery.

What went wrong for the British, and who was responsible? Robin Prior and Trevor Wilson have examined the entire public archive on the Battle of the Somme to reconstruct the day-by-day course of the war. The result is the most precise and authentic account of the campaign on record and a book that challenges almost every received view of the battle.

Russian Conservatism and Its Critics

Why is democracy unable to flourish in Russia? In this brilliant analysis of Russia's immemorial commitment to the theory and practice of autocracy, Richard Pipes demonstrates why the belief in autocracy remains the most formative and powerful idea in Russia's political history.

Ivan the Terrible

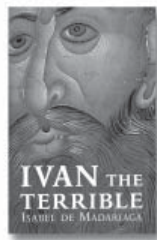

Isabel de Madariaga, *University of London*

Ivan IV, “the Terrible” (1533–1584), is one of the key figures in Russian history, yet he has remained among the most neglected. Notorious for pioneering a policy of unrestrained terror—and for killing his own son—he has been credited with establishing autocracy in Russia. This is the first attempt to write a biography of Ivan from birth to death, to study his policies, his marriages, his atrocities, and his disordered personality, and to link them as a coherent whole.

“This simply brilliant book is a colossal achievement of magisterial scholarship, beautifully readable prose and superb characterisation of a staggeringly degenerate monster who was both an appallingly sadistic criminal and a pathetically tragic victim of power.”—Simon Sebag Montefiore, *Evening Standard*

Sketches from a Secret War

A Polish Artist's Mission to Liberate Soviet Ukraine

Timothy Snyder, *Yale University*

Henryk Józewski directed Polish intelligence in Ukraine, governed the borderland region of Volhynia in the interwar years, worked in the anti-Nazi and anti-Soviet underground during the Second World War, and conspired against Poland's Stalinists until his arrest in 1953. His personal story, important in its own right, sheds new light on the foundations of Soviet power and on the ideals of those who resisted it. By following the arc of Józewski's life, this book demonstrates that his tolerant policies toward Ukrainians in Volhynia were part of Poland's plans to roll back the communist threat.

“A remarkable combination of a real life spy story, an outstanding piece of historical detective work in previously unavailable archives, and a set of profound reflections on East European history—with many notable echoes in East European politics today.”—Timothy Garton Ash

Farming the Red Land

Jewish Agricultural Colonization and Local Soviet Power, 1924–1941

Jonathan L. Dekel-Chen,
Hebrew University of
Jerusalem

This is the first history of the Jewish agricultural colonies that were established in Crimea and Southern Ukraine in 1924 and that, fewer than 20 years later, ended in tragedy. Jonathan Dekel-Chen opens an extraordinary window on Soviet rural life during these turbulent years, and he documents the remarkable relations that developed among the American-Jewish sponsors of the ambitious project, the Soviet authorities, and the colonists themselves.

Drawing on extensive and largely untouched archives and a wealth of previously unpublished oral histories, the book revises what has been understood about these agricultural settlements. Dekel-Chen offers new conclusions about integration and separation among Soviet Jews, the contours of international relations, and the balance of political forces within the Jewish world during this volatile period.

“Dekel-Chen draws upon a massive source base to reconstruct the history of Jewish agricultural colonization in the Crimea—the sheer breadth of his research is staggering. This is a first-rate piece of scholarship and writing, with important implications for Russian, Jewish, and American historiography.”—Gregory Freeze

Edited and annotated by Joshua Rubenstein and Alexander Gribanov; With an introduction by

Joshua Rubenstein

In this powerful book, the story of KGB surveillance and intimidation of Nobel prize laureate Andrei Sakharov from 1968 to his death in 1989 comes to light for the first time. Disturbing archival documents show how deeply the KGB feared this great figure of Soviet science, and how profoundly it misunderstood his role in the human rights movement.

“A fascinating, illuminating book, a treasure trove of information on the development of Sakharov’s views and of the ‘dissident movement’ in the Soviet Union and Eastern Europe.”—Jeane J. Kirkpatrick

The War Against the Peasantry, 1927-1930

The Tragedy of the Soviet Countryside, Volume One

Edited by Lynne Viola, *University of Toronto*, V. P. Danilov, N. A. Ivnikskii, and Denis Kozlo, *University of Toronto*; Translated by Steven Shabad

This revelatory book, the first of four in the series, presents the most important primary Soviet documents dealing with the brutal economic and cultural subjugation of the Russian peasantry. Drawn from previously unavailable and in many cases unknown archives, these harrowing documents provide the first unimpeded view of the experience of the peasantry during the years 1927-1930.

“This volume—one of the most exciting in the Annals of Communism series—uncovers the Stalinist decision- and policy-making processes at work on momentous new directions for the countryside. A remarkable achievement!”

The Spanish Inquisition

A History

Joseph Pérez, *University of Bordeaux*; Translated by Janet Lloyd

This is the story of 350 years of terror. Joseph Pérez tells the history of the Spanish Inquisition from its medieval beginnings to its nineteenth-century ending. He discovers its origins in fear and jealousy and its longevity in usefulness to the state. He explores the inner workings of its councils, and shows how its officers, inquisitors, and leaders lived and worked. He describes its techniques of interrogation and torture, and shows how it refined displays of punishment as instruments of social control. The author ends his fascinating account by assessing the impact of the Inquisition over three and a half centuries on Spain's culture, economy, and intellectual life.

"A scholarly and vivid recasting of a painful era in which 32,000 innocent people went to the stake, is a salutary reminder of the potential savagery occasioned by religion."—John Cornwell, *Sunday Times* (London)

Bárbaros

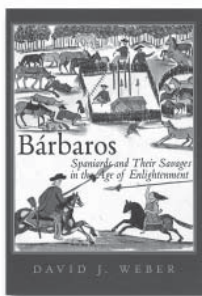

Spaniards and Their Savages in the Age of Enlightenment

David J. Weber, *Southern Methodist University*

In this panoramic study, David J. Weber explains how late eighteenth-century Spanish administrators tried to fashion a more enlightened policy toward the people they called *bárbaros*, or "savages." Even Spain's most powerful monarchs failed, however, to enforce a consistent, well-reasoned policy toward Indians. At one extreme, powerful independent Indians forced Spaniards to seek peace, acknowledge autonomous tribal governments, and recognize the existence of tribal lands, fulfilling the Crown's oft-stated wish to use "gentle" means in dealing with Indians. At the other extreme the Crown abandoned its principles, authorizing bloody wars on Indians when Spanish officers believed they could defeat them. Power, says Weber, more than the power of ideas, determined how Spaniards treated "savages" in the Age of Enlightenment.

"A lucidly written landmark study, packed with insight, patterns, regional and temporal specificity, and memorable voices. A key to much about Latin American history. Everyone who wants to write about the colonial period must reckon with this book."—William B. Taylor

Husbands, Wives and Lovers

Marriage and Its Discontents in Nineteenth-Century France

Patricia Mainardi

In this lively interdisciplinary study, Patricia Mainardi investigates how adultery, a major social problem in early nineteenth-century France, was treated in theater, literature, and visual arts of the period.

"Mainardi's investigation affects not only our interpretation of much of the visual culture of 19th-century France, but requires too that we rethink the journalism, the literature, the poetry, and the theater—indeed all aspects of elite and popular culture of the period."

Nationalism and French Visual Culture, 1870-1914

Edited by June

Hargrove, *University of Maryland, College Park*, and Neil McWilliam, *Duke University*

Between its defeat in the Franco-Prussian War and the outbreak of World War I, France experienced a tremendous rise in populist nationalism, the aftershocks of which can still be felt today. In examining the forces that shaped the arts of this period—from the academy to the avant-garde, and from the museum to public spaces—this volume explores the relationship between the arts and political conflict and the impact of nationalism during the early modern period in France.
